Services***

APRIL 2007

## Introduction

The Quality Consortium of Suffolk County is a partnership of non-profit organizations dedicated to the delivery of comprehensive, affordable, and accessible chemical dependency prevention and treatment services.

We are committed to respond to the changing needs of our communities.

We maintain a leadership role in providing services, keeping the community abreast of developments in the field and in working together to serve those in need of alcoholism and substance abuse prevention and treatment services.

This Member Program Guide provides you with ready access to the programs of the Quality Consortium of Suffolk County. Each program is listed on a separate page and is organized by the program categories of Outpatient, Detoxification, Inpatient Rehabilitation, Residential, Day Treatment, and Prevention & Education.

It is expected that your contacts with these programs will proceed expeditiously and to the benefit of those whom we are all dedicated to serve. The Quality Consortium of Suffolk County encourages and welcomes feedback regarding whether there are ways in which we can enhance these purposes.

For further information and to share your comments and concerns with the Quality Consortium of Suffolk County, you may contact its Co-President(s):

Mary Silberstein
